Half Packed

Verse 1

My bags are half packed baby and I'm standing at the door
Wanna give my love to you, wanna know the score
I just can't explain, somebody tell me why
I know I know I want you; I'm a scared and lonely child

Chorus

You told me that you want me and you know I want you too
Somehow when I'm not near you I doubt the things we do
Said you told me that you want me and you know I want you too
Somehow when I'm not near you I doubt the things we do

Verse 2

Hearts beating wildly, pulses racing through
All of this I get when I'm a close and holding you
Mirrored is this emotion when we are apart
I just can't feeling your gonna break my heart
So hold me tight my darling make it all alright
Cos all I wanna do is hold you through the night

Moth to the light

Verse 1

You needed me, but, I wasn't there -I must admit
I've been overcome by fear
Your tendency to love so deep has truly thrown me
And you've knocked me off of my feet
You make it hard for me to love you
Use and abuse you say is what you do
I like a fool still call for you

Chorus

Like a moth in the night, I'm drawn to your light
Outshine my fears
Can your hugs make it right, Baby hold me all night
Kiss away my tears
When I'm needing you most, Honey hold me real close
Take the hurt away
Your loving embrace, Is my lantern encased
My guiding light

Verse 2

How could it be- that you've made me see
What I've been missing -hugging 'n' kissing
Holding your hand- in the pouring rain
Walks in the park-down (the) country lanes
Meals on the terrace -dinner for two
All this I miss not being with you
How can I again be without you?

Chorus

Dirt Track

Verse 1

I was wondering baby, if one day u could follow
Follow me and my friends over to our paradise
I was wondering baby if one day u could be my
One day u could be my valentine

Chorus

We would take a ride down dirt roads
Kick off our shoes and watch the show
Dance until it rains
So will you...follow me
So will u...rock with me yeah
And leave your cares behind
I can tell u want it your way

Verse 2

Why don't u chase the shadows
Do what you feel to do run wild and free like it's meant to be.....
Don't you know that your destiny
Doesn't lie in your history-but right here with me making paradise

Chorus

Hooked

Verse 1

Reaching out to touch you, not anyone else but you
Yesterdays love is over all of that is through
You're the one I wanna be with of this I am quite sure
But it's your response to me baby that makes me insecure

Chorus

I'm hooked hooked on emotion
Chronic addiction wrapped in your love
You know I'm hooked hooked on emotion
Chronic addiction wrapped in your love

Verse 2

I've never felt this way not in along long time
My hearts beating wildly baby and I'm needing you to be mine
When we are apart it's like somebody sends
An arrow through the heart from one of cupid's friends

Chorus

Bridge

I'll accept your follies, I'll tolerate your ways
Cos you've got more to offer, now I bound to stay
Don't look over your shoulder don't think about yesterday
It's me and you together and love is here to stay

Chorus

Fade Away

Verse 1

You call me up lady saying his rinsing me
The two of you baby never did agree,
Two types of woman in a man's life
One he plays with the other one becomes his wife

Chorus

Give yourself value you don't have to be me
Make your body a temple not for the world to see
You act like it was love when you knew it was a game
He watched you fool around time and time again
Nothing you can say can make me fade away

Verse 2

Girl I don't hate you so don't hate on me
I'll forgive you yeah I'll let you be
The only thing is you've gotta understand
Girl simply you know that he's my man

Chorus

Bridge

You thought he'd leave me for you girl
Look now he's lost in my world
A place with me now forever
My love he's found won't falter
You picked him up like a play thing he's made his move it's the real thing
Our love that's deeper than ever our love to hold and treasure

Chorus

How is it

Verse 1

You watch me when I fall, you've been there when I called
You know that I've been looking and you know that I've been trying
I wonder where you are sometimes cos it feels like I'm just all alone
But still I see your there for me and pray you'll never leave

Chorus

How is it that you love me so, how is it that you won't let go
How is it that you've made me see so much to learn before I'm free
How is it that you're infinite how is it that we all forget
Your coming back what do you want call me the fool cos I believe in
love
Baby I'm love

Verse 2

I've made mistakes so many times, thought I was right only to find
I'm still a child so much to learn, mistakes were made and you know
I got burnt
You guided me through, through the dark
When I couldn't find my way and I played those silly games and I
fell so far away

There are some people in this world that can say I love you
But that's not true of me sweet baby and it makes me sad and blue

I share jus look beyond the words
look at my expression (woo yeah woo yeah)
And the meaning lies right there right there I said love pure love signals
Love signals

I can buy you gifts or hold you through the night
But the feeling must be right
Body mind and time are all here for you
Can't you see I'm showing you love you love, you love

All I'm hitting you with is this baby
Said it's more than money can buy
Baby can't you see the signals
Belicia beacon in the sky the sky

Your loves like a hurricane, moving all through my veins
The mention of your name makes me go insane
I'm feeling kinda high - now you're in my sky
Your loves like a hurricane
Moving all through my veins

Verse 1

I'm so into you- that I think I've lost me
My body drinks you in -like the sun on my skin
I feel my temperature rise, oh what a loving surprise

Like a seashell you whisper in my ear
Baby how much you care

Chorus

Verse 2

Tranquil calm and blue- boy then I met you
Full of love and energy-then you captured me
Like a storm you took over my life
Some call it love, I call it paradise
Don't send no rescue for me
Stranded with you is where I wanna be

Chorus

O yeah your love, O yeah your love

Show me (what you've got)

You had me in a box you wouldn't let me leave
Something inside you made you believe
That traps and cages were the only way to make me stay (ooh ohh)
The only thing my dear you couldn't see into see into the next day
In front of all your friends impressions given like we'd never end (ooh ohh)

Now we are again I'm standing at your door
Your tears can't touch me no more

Whats It Gonna Be?

Verse 1

Your house baby is not my home no no no

Your friend's baby you know there not my friends

Your mamma can't stand the sight of me

Even your neighbour -God bless her

Stopped me in the street,

Told me she knew you as a kid, and that I just wasn't right for you no

Chorus

What's it gonna be? oh my baby my baby

Follow them or me

What's it gonna be oh my baby my baby

Follow them or me

Verse 2

Don't listen to people who don't know me anymore

Darlin you'll always always be my man

Even when I went away and I thought that we were through

I knew you were the one for me

They've forgotten how good loving feels

Now my heart baby boy you know that it belongs to you

Chorus

Lets Give Love A Try

Verse 1

Maybe we should call it a day
Couldn't stand to hear the others say
Girl don't be the fool-don't let him ridicule, you anymore
But I know deep down in my heart -that he wants to play the part
But why should I wait-frustrated I contemplate what to do-

Chorus

Lets give love a try,
Baby don't tell me that you -want it all to die
How can this be you mean to much to me-boy
Lets give love a try
Baby don't tell me that you -want it all to die
How can you leave you mean to much to me

Verse 2

You tell me you don't have what it takes
To stand back what we need is a break
Is this all that you feel-you can do to keep it real-to me
Your skills are never enough- and all I ever do is act tough
To this you say have it all your way-to be through

Chorus

Bridge

Oh let's give love a try don't let our love die

Verse 3

Your boys are telling you you're a mess
To forget about it that's what's best
You whisper to me-maybe baby it could be another way
I'm needing to convince you of this
How I'm longing for your kiss-your touch feels so sweet
Make me complete tonight

Chorus

Call Me

Verse 1

When I'm all alone waiting by the phone for you to call me
It can feel like a day has just slipped away baby
And my need still so strong damn I'm needing you to belong to me
It's that strong tender touch baby you know I'm craving so much
Fill me

Chorus

Why don't you call me? Yeah
Maybe baby you don't need me why don't you call me
Why don't you call? Why don't you call?

Verse 2

Now I'm here in your arms secured by your charms, hold me,
Let the night follow day lead me astray, take me
As our rhythm takes flight our longest night, touch me
At the dawn of a new day baby you know you know I'm gonna ask
you to stay

Chorus

Bridge

I need your loving, your touch you're hugging
I need your loving, your touch you're hugging

Chorus

If you feel the same for me, the way I feel for you
Rush over oh,
Said if you feel the same for me
The telephone aint doing it for me no more,
What I need right now is you

Chorus

Said if you feel the same for me, the way I feel for you
Rush over oh,
Said if you feel the same for me, the way I feel for you
Rush over oh,

Baby yeah
What I need what I want is for you to rush over

Chorus

Said if you feel the same for me, the way I feel for you
Rush over oh,
Said if you feel the same for me, the way I feel for you
Rush over oh

Don't let me be lonely tonight

Do me wrong, do me right,
Tell me lies but hold me tight,
Save your goodbyes for the morning light,
But don't let me be lonely tonight.

Say goodbye baby say hello,
Sure enough good to see you, but baby it's time to go,
Don't say yes but please don't say no,
I don't want to be lonely tonight.

Go away then, damn you,
Go on and do as you please,
You aint gonna see me gettin down on my knees.
I'm undecided, and your hearts been divided,
You've been turning my world upside down.

Do me wrong, do me right (right now baby),
Go on and tell me lies but hold me tight.
Save your goodbyes for the morning light (morning light),
But don't let me be lonely tonight.
I don't want to be lonely tonight.
No, no, I don't want to be lonely tonight.

I don't want to be lonely tonight.
